ENVIROBALE® BAGGING SYSTEM

DESIGNED FOR TWO-RAM BALERS

- Allows for a significantly cleaner and healthier working environment, with less odor and vermin, improving employee morale, and reducing turnover
- Eliminates material fallout, in turn reduces labor costs, and increases overall productivity
- Reduces loading, unloading, and transportation costs
- Increases bale layers per cell at the landfill, bagged bales used as walls to eliminate tarping vertical face, and creates cleaner leachate

THE NEXT REVOLUTION IN SOLID WASTE CONTAINMENT SYSTEM
